

Landscape Architect Project Manager

EUGENE | PORTLAND | BEND

Description:

At Cameron McCarthy, a Project Manager Landscape Architect holds a high level of responsibility and is positioned to advance into a senior-level role. At the core, the job is to facilitate excellent design through a progressive, inclusive creative process. The role will be best filled by a blend of sophisticated project management skills, a proven practitioner, an increasing capacity in design talent, and top tier client services. A refined proficiency in ACAD, Civil3D, Microsoft 365, and Adobe Creative Cloud is essential to the job; additionally rendering and visual applications knowledge is desired. Mastering of specifications and materials, and critical problem-solving skills are fundamental aptitudes and will serve the individual and the studio well. The person in the role will be a curious-minded individual who is equipped to facilitate team collaboration and production efforts. This person will be comfortable working in a fast-paced, high-energy, high-performing environment. Bilingual or multilingual in Spanish is desired, and experience working with and/or lived experience or expertise relevant to underrepresented communities in the Pacific Northwest or elsewhere is preferred.

Studies have shown that women and people of color are less likely to apply for jobs unless they believe they have every qualification as described. We are most interested in finding the best candidate, and that candidate may come from a less traditional background. We encourage you to apply, even if you don't think you meet every one of our preferred qualifications — use your application to let us know what excites you about the role and what transferable skills or other qualities you would bring.

This position can be located in any one of our three locations: Eugene, Portland, and Bend.
